The Adult Intensive Training is a program for students with a passion for aerial dance who desire to train at a high level and in a focused environment. This program seeks to empower advanced aerialists to access more of their potential, achieve their personal and career goals, and guide them on the journey to discovering their own artistic voices. The students will develop the technique, performance, and choreography skills to help them succeed as aerial dance artists and performers. Although the students will train hard and be challenged to their limits, this will be a non-competitive environment. Our goal is to foster individual potential and talents that then contribute to the support of the group. We want each student to achieve the goals they set forth and to motivate their peers to do the same. The Intensive students will be a team that works together to lift up each and every member.

Through this program, the students will learn new work and create their own work, which will be showcased in Frequent Flyers student performances. The classes will focus on performance quality, technique, choreography, composition, improvisation, conditioning, and dance. As the students develop their work, they will learn to view work critically and give each other constructive feedback. The students will learn how to conduct themselves as professionals, while receiving the support, resources, and guidance they will need on their journey to reach their individual goals.
